

## MEDICAL CERTIFICATE OF ABSENCE OF CONTRAINDICATION TO SPORTS PRACTICE (CACI)

Decree No 2021-564 of 7 May 2021 concerning the procedures for obtaining and renewing a licence of a sports federation and the procedures for registering for a sports competition authorized by a delegated federation or organized by an accredited federation, for minors outside disciplines with particular constraints.

**Art. D. 231-1-4-1** For minors, obtaining or renewing a licence, whether or not allowing them to participate in competitions organized by a sports federation, is subject to attestation of completion of a questionnaire relating to the state of health of the minor sportsman, carried out jointly by the minor and by the persons exercising parental authority. When a response to the health questionnaire leads to a medical examination, obtaining or renewing a license requires the production of a medical certificate attesting the absence of contraindications to sports practice dating less than 6 months.

I, the undersigned, Docteur
